End User License Agreement
For Inspect Software

IMPORTANT—READ CAREFULLY: By selecting “I agree” below, or installing, accessing, or otherwise copying or using all or any portion of the Software: (i) you are consenting to be bound by all the terms and conditions of this End User License Agreement (“Agreement”), and a contract is formed between Hexagon Technology Center GmbH, a Swiss company having principal offices at Heinrich-Wild-Strasse 201, CH-9435 Heerbrugg, Switzerland (“Licensor”), and either you personally, if you acquire the Software for yourself, or the company or other legal entity for which you are acquiring the Software; and (ii) you represent and warrant that you have the right, power and authority to act on behalf of and bind such legal entity (if any) or yourself.

If you do not agree or do not wish to bind yourself or the entity you represent, do not install, access, or otherwise copy or use the Software.

• DEFINITIONS.
  • “Affiliate” means, with respect to a specified entity, any other entity that directly or indirectly controls, is controlled by or is under common control with such entity, where “control” means the ability to, directly or indirectly, directly or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract or otherwise.
  • “Authorized User” means (i) if Licensee is an individual, solely the Licensee; (ii) if Licensee is a legal entity, any employee or independent contractor of Licensee who is bound by confidentiality obligations consistent with this Agreement and is authorized by Licensee to use the Software for the benefit of Licensee as permitted herein.
  • “Documentation” means user documentation (in electronic or other form made generally available by Licensor) made available together with the Software by Licensor for use with the Software.
  • “Hexagon” means the Licensor or one of its Affiliates from whom the Software and/or Maintenance is ordered or otherwise obtained.
  • “License Keys” means entitlement ID, license keys, or activation codes, if any, required to install, access, and/or use the Software.
  • “License Manager” means any license manager program or tool Licensor or its Affiliates may make available with the Software for managing and controlling access to and use of the Software.
  • “Licensee” means either you personally, if you acquire the Software for yourself, or the company or other legal entity for which you are acquiring the Software.
  • “Maintenance” means, for the purposes of this Agreement, maintenance and technical support services for the Software as specified in subsections 5.1 and 5.2 of this Agreement.
  • “Prerequisite Program” means the version(s) of Hexagon’s PC-DMIS software, or other Hexagon-provided metrology software, which the Documentation identifies as compatible with and necessary for use of the Software.
  • “Reseller” means an un-affiliated third party reseller or distributor authorized by Hexagon to market, distribute and/or support the Software.
  • “Software” refers to the Inspect computer program delivered pre-packaged with, or otherwise accompanying, this Agreement. Software shall also include any updates, service packs and new releases to such Software made available by or on behalf of Licensor to Licensee in connection with Maintenance.

Additional terms with specific meanings are defined near where they first appear in this Agreement.

• GRANT OF LICENSE.
  • Subject to the terms and conditions of this Agreement, and Licensee’s payment in full of all applicable fees and charges for the Software, Licensor grants to Licensee, and Licensee accepts from Licensor, a non-sublicensable, non-exclusive, non-transferable license to install and use, during the applicable license term, the executable code version of the Software (together with accompanying Documentation, if any) lawfully acquired, solely for Licensee’s own internal use by its Authorized Users in accordance with the Documentation. The Software may only be installed on Licensee computer(s) for which Licensee has separately acquired and installed a valid license of a Prerequisite Program with which the Software is to interface.
- This license shall be in accordance with the limitations of the applicable license type and in the quantities Licensee has validly acquired from Hexagon or from a Reseller who has been authorized by Hexagon to supply this Software. In no event may Licensee’s installation or use exceed the number of licenses validly acquired, nor may Licensee use the Software or Documentation following termination or expiration of the applicable license term. The license term (duration) shall be subject to early termination as set forth in this Agreement.

- Any license, Maintenance or other rights granted to Licensee under this Agreement extends only to the features, modules, options or portions of the Software and Documentation for which Licensee has lawfully acquired a valid license. Any usage of the Software or Documentation outside the scope of the applicable license grant or otherwise not in accordance with this Agreement constitutes an infringement of Licensor’s intellectual property rights as well as a material breach of this Agreement.

- No license or other right is granted under the terms of this Agreement if Licensee did not lawfully acquire the Software from Hexagon or from a Reseller who has been authorized by Hexagon to supply this Software.

- PREREQUISITE PROGRAMS. Prerequisite Programs are subject to a separate and independent end user license agreement and payment of separate applicable fees and charges. No license or right of any kind whatsoever is granted under this Agreement with respect to Prerequisite Programs.

- RESTRICTIONS AND PROTECTIONS.

  - Licensee acknowledges that the Software and its structure, organization and source code constitute and contain valuable confidential information and trade secrets of Licensor (and its suppliers, as applicable). Licensee shall not: (i) reverse-engineer, decompile, disassemble, or otherwise attempt to derive the source code for the Software; (ii) modify, adapt, alter, translate or create derivative works from the Software or Documentation; (iii) sublicense, rent, loan, lease, sell, or otherwise transfer all or part of the Software or Documentation to any third party except as expressly permitted under this Agreement; (iv) allow any third party to access or use the Software on a service bureau, application service provider, time-sharing, or similar basis; (v) disable, modify or circumvent any license management system or security mechanism provided with the Software, or take any other steps to avoid or defeat the license management system or security mechanisms provided with the Software; (vi) remove, alter, or obscure any proprietary notices, labels, or marks from the Software or Documentation; (vii) disclose results of any Software test or benchmark without Hexagon’s prior written consent; (viii) use the Software to develop software applications for use by or distribution to any third party, whether as standalone products or components; (ix) use the Software, its outputs or Documentation for the purposes of developing a competitive product or service; (x) disclose, display, or permit access to or use of the Software or Documentation by persons other than Authorized Users using the Software and Documentation within the scope of the license acquired by Licensee; (xi) access or use any feature, module, option, or portion of the Software or Documentation for which Licensee has no valid license; or (xii) otherwise use or copy the Software or Documentation except as expressly permitted under this Agreement. Licensee agrees to notify Hexagon immediately of any unauthorized access to or use of the Software. Licensee shall at all times be responsible for its users’ compliance with this Agreement.

  - Licensee may not copy or otherwise reproduce the Software in whole or in part, except (i) as may be required for installation into the computer memory for the purpose of executing the Software for licensed use; and/or (ii) to make one copy for back-up purposes. Any such copies made by Licensee shall be the property of Licensor, and Licensee must reproduce and include, in exact form, all proprietary notices rights. Licensee shall maintain records of the location of each copy of the Software, and the location and identity of the computers on which the Software is installed.

  - Licensor (and/or its suppliers, as applicable) retains ownership in all worldwide intellectual property rights in the Software, Documentation and other materials made available by Licensor, and all modifications, enhancements or other derivative works thereof. Nothing in this Agreement will be deemed to convey to Licensee any title, ownership, or other intellectual property rights in or related to the Software, Documentation or other materials made available by Licensor, or modifications, enhancements or other derivatives thereof, and Licensee agrees not to assert any such rights. All rights in and to the Software and Documentation not expressly granted to Licensee in this Agreement are reserved by Licensor (and/or its suppliers, as applicable). The Software is licensed, not sold.

  - Upon fifteen (15) days written notice, Licensor or its authorized agent or representative may audit Licensee’s installation and use of the Software and Documentation. Licensee shall fully cooperate with Licensor’s audit
and provide reasonable assistance and access to information, including without limitation reasonable access to Licensee’s facilities and computer systems during normal business hours, as well as providing installation and usage reports as may be requested by Licensor or its authorized agents or representatives. In addition to any other remedies available to Licensor, Licensee agrees to pay within thirty (30) days of written notification any fees and charges applicable to Licensee’s use of the Software and Documentation in excess of Licensee’s license rights. Licensor shall not be responsible for Licensee’s costs incurred in cooperating with the audit.

- Licensee acknowledges that the obligations of Licensee under this Section 4 are of a special and unique character which gives them peculiar value to Licensor for which Licensor cannot be reasonably or adequately compensated in damages in the event Licensee breaches such obligations. Licensor therefore agrees that injunctive relief is an appropriate remedy for such breach or threatened breach. Such relief shall be in addition to, and not in lieu of, any other rights or remedies in law or equity to which Licensor may be entitled.

- **MAINTENANCE.**

- If Licensee acquires Maintenance for Software, then during the applicable Maintenance term and subject to the terms and conditions of this Agreement, Licensor will (directly or through its Affiliate or Reseller) make available to Licensee updates, service packs, and new releases of the Software (and updated Documentation), if any, that Licensor, in its sole discretion, makes generally available to its other similarly situated end-user customers of the Software who are on Maintenance. Maintenance shall not entitle Licensee to any release, option, module, or future product, which Licensor, in its sole discretion, licenses separately or offers for an additional fee. Licensor is under no obligation to develop any future programs or functionality.

- Additionally, if Licensee acquires Maintenance for Software, then during the applicable Maintenance term and subject to the terms and conditions of this Agreement, Licensee will be entitled to technical support via telephone and/or any other means Hexagon, in its sole discretion, makes generally available to its other similarly situated end users of the Software who are on Maintenance. Technical support is limited to reasonable remote assistance in response to Licensee’s technical support inquiries regarding: (i) Software installation, (ii) Software errors, and (iii) general questions regarding the usage of Software features. Technical support does not include training, consulting, on-site services, or the provision of engineering judgment for a customer-specific situation. Technical support will be limited to the then-current release of the Software (and any immediately preceding release(s) of the Software supported by Hexagon under its then-current technical support policy for the Software), running unaltered, and on an appropriate hardware and operating system configuration, as specified in the applicable Documentation. Upon Hexagon’s request, Licensee shall provide information required by Hexagon to verify that Licensee and the specific license are entitled to technical support. To allow Hexagon to properly address technical issues, Hexagon may request that Licensee provide files and other materials and information.

- Only those Software licenses for which Licensee has acquired Maintenance and has a current right to Maintenance will be entitled to the Maintenance specified under subsections 5.1 or 5.2 of this Agreement. The duration and quantity of any initial or renewal Maintenance acquired by Licensee will be as expressly set forth in the applicable order document. If Maintenance lapses (or was not initially acquired), and Licensee wishes to procure Maintenance, the Licensee will be assessed additional back maintenance fees for the period the Software was not maintained, as well any applicable reinstatement fees, in accordance with Hexagon’s then-current policies. In addition to any other remedies available to Hexagon, Hexagon reserves the right to refuse to provide Maintenance if Licensee is overdue on any payment obligation to Hexagon.

- Hexagon’s sole and exclusive liability, and Licensee’s sole and exclusive remedy, for Hexagon’s material breach of its Maintenance obligation and failure to cure such material breach within thirty (30) days after written notice will be that Licensee may terminate Maintenance for the Software involved and receive a prorata return of Maintenance fees actually paid to Hexagon for the remaining unused Maintenance period of the Software involved.

- In the event Licensee is not entitled to Maintenance, but Hexagon or its Affiliates nevertheless in their discretion provide Licensee with Maintenance (i.e., technical support, updates, service packs and/or new releases) specified under subsection 5.1 or 5.2 of this Agreement, such Maintenance shall be subject to the terms and conditions of this Agreement.

- **DELIVERY.**

- Hexagon reserves the right to deliver the Software and Documentation either by making them available to Licensee electronically (e.g., by making available for electronic download) or by physical shipment. For
electronic delivery, the Software will be deemed delivered when the Software is made available to Licensee electronically. For physical shipments, the Software will be deemed delivered upon shipment. Unless otherwise agreed to in writing by the parties, Hexagon will determine the method of shipment for Software. Additional shipping, handling, insurance fees may apply for physical shipments.

- **INSTALLATION AND LICENSE KEYS.**
- Licensee acknowledges that the Software (and Documentation) may be disabled and protected by a License Manager and require License Keys to access and use. Any such required License Keys will be issued by Licensor or its Affiliates in accordance with their then-current license key management policies and/or practices. Licensee shall provide Hexagon with information required by Hexagon to generate any necessary License Keys.
- Any Licensee requests for replacement License Keys are subject to Hexagon’s then-current policies and Licensee’s payment of applicable fees. Hexagon has no obligation to provide replacement License Keys if: (i) the Software is not supported on the proposed substitute computer; (ii) if Licensee is in breach of this Agreement or the Order Document; or (iii) if the applicable Software is not covered by Maintenance.

- **OTHER**
- Feedback. Licensee agrees that any feedback or ideas Licensee or its users provide to Licensor or its Affiliates regarding the Software or Documentation or any suggested improvements thereto (together, the “Feedback”) will be the exclusive property of Licensor. To the extent Licensee owns any rights in the Feedback, Licensee hereby agrees to, and hereby does, assign all right, title and interest in and to the Feedback to Licensor.
- Third Party Software. The Software may be accompanied by or contain certain third party software, including open source software (collectively, “Third Party Software”), for which Licensor may be required to pass-through to its licensees certain additional terms and/or notices. Such additional Third Party Software terms and/or notices may be found in the Software Help/About Menu, Documentation, and/or read me files. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS AGREEMENT, THIRD PARTY SOFTWARE IS PROVIDED TO LICENSEE ON AN "AS-IS" BASIS, WITHOUT WARRANTIES OF ANY KIND ON THE PART OF LICENSOR OR ITS AFFILIATES (OR THEIR SUPPLIERS), AND NEITHER LICENSOR, ITS AFFILIATES, OR THEIR SUPPLIERS, SHALL HAVE ANY LIABILITY FOR CLAIMS, DAMAGES OR INDEMNITIES ARISING OUT OF OR RELATED TO ANY THIRD PARTY SOFTWARE.

- **WARRANTY; LIMITATIONS.**
- The Software and any Documentation, Maintenance, Services or other materials provided under this Agreement are provided on an AS-IS basis, with no warranties of any kind. Neither Licensor nor any Affiliate or supplier of Licensor make any warranties of any kind, with respect to the Software, Documentation, Maintenance, Services or other materials provided under this Agreement. The warranties of merchantability, fitness for a particular purpose, and non-infringement are expressly disclaimed.
- Licensor does not warrant, guarantee, or make any representations concerning the use, usefulness, results of use, of the Software or Documentation, or as to the compatibility, correctness, accuracy, or reliability of the Software. In particular, the Software is a complex product and is not warranted to be free of defects in programming or errors in performance or to operate without interruption, or to be compatible in all respects with the multiple software and hardware products that may be interfaced with it. It is the Licensee’s responsibility to choose software that meets the Licensee’s computing needs, and the Licensee bears the entire risk as to the performance and results of the Software, and Licensee is cautioned not to rely exclusively on the Software for the measurement functions that it facilitates without verification or cross-checking through other means. Licensee agrees that no oral or written representation, statements, advice or advertisements by Licensor or its Affiliates, or their Resellers, agents or employees constitute any warranty or modification of the foregoing disclaimer and limited warranty, and Licensee is hereby notified that no such person has any authority to make any such modification or additional warranties.

- **LIMITATION OF LIABILITY.**
- Licensee acknowledges that the Software along with the Documentation, Maintenance and any services
provided hereunder are only an aid in Licensee’s development of Licensee’s products and is not intended as a substitute for sound engineering judgment. Licensee further acknowledges that Licensee is solely responsible for the quality control of its products, and that neither Licensor nor its Affiliates or suppliers shall have any liability to Licensee or any third party in respect to the quality or conformity of any products produced and used or sold by Licensee. Licensee shall, at its own expense, indemnify, defend and hold Licensor and its Affiliates and suppliers harmless from and against any claims brought against Licensor or its Affiliates or suppliers by a third party arising out of, or related to, Licensee’s use of the Software.

NEITHER LICENSOR NOR ITS AFFILIATES OR SUPPLIERS WILL BE LIABLE (DIRECTLY OR INDIRECTLY) FOR ANY INDIRECT, CONSEQUENTIAL, INCIDENTAL, EXEMPLARY, PUNITIVE OR SPECIAL DAMAGES; FOR LOSS OF USE, PROFITS, REVENUE, SAVINGS, OR DATA; OR FOR BUSINESS INTERRUPTION; ARISING OUT OF, RELATING TO, OR IN CONNECTION WITH THE SOFTWARE, DOCUMENTATION, MAINTENANCE, SERVICES, OTHER MATERIALS OR THIS AGREEMENT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH LOSS OR CLAIM. UNDER NO CIRCUMSTANCE WILL LICENSOR’S, OR ITS AFFILIATES’, LIABILITY UNDER OR IN CONNECTION WITH THE SOFTWARE, DOCUMENTATION, MAINTENANCE, SERVICES, OTHER MATERIALS AND THIS AGREEMENT, WHETHER IN CONTRACT, TORT, OR OTHERWISE, IN THE AGGREGATE, EXCEED THE AMOUNT ACTUALLY RECEIVED FOR THE SOFTWARE OR MAINTENANCE THAT IS THE SUBJECT MATTER OF, OR IS DIRECTLY RELATED TO THE CAUSE OF ACTION. NO CLAIM, REGARDLESS OF FORM, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT MAY BE BROUGHT BY LICENSEE MORE THAN TWO (2) YEARS AFTER THE EVENT GIVING RISE TO THE CAUSE OF ACTION HAS OCCURRED. TO THE EXTENT ANY APPLICABLE LAW LIMITS THE SCOPE OF THIS SECTION 10.2., THIS AGREEMENT SHALL BE INTERPRETED TO CONFORM TO SUCH LAW IN A MANNER THAT LIMITS LICENSOR’S AND ITS AFFILIATES’ AND SUPPLIERS’ LIABILITY TO THE FULLEST EXTENT ALLOWED BY LAW.

EXPIRATION AND TERMINATION.

The term of a valid license granted shall continue indefinitely, unless Hexagon specifies a subscription, evaluation, beta, or other term license in which case the license shall expire at the end of the applicable term. In any event, the term of any license granted is subject to early termination as set forth herein. Licensor’s license grant is conditioned on Licensee’s continuous compliance with the terms and conditions of this Agreement. If Licensee violates any of the terms or conditions of this Agreement, the license grant will automatically and immediately terminate. Additionally, Hexagon may terminate any license grant upon notice to Licensee if Hexagon does not receive, when due, the full amounts due to Hexagon for any Software, Maintenance and related items. Hexagon may also terminate any license grant if Licensee makes a general assignment for the benefit of its creditors, is the subject of an involuntary bankruptcy petition, or is otherwise subject to insolvency or dissolution proceedings unless Licensee is released from such proceedings within ninety (90) days. Further, any license grant for this Software will automatically terminate if the license for the underlying Prerequisite Program with which the Software is to interface expires or terminates for any reason. In addition to any other termination rights, Hexagon may terminate no-charge licenses (i.e., licenses for which no fee was charged) at any time in Hexagon’s sole discretion.

Upon expiration or termination of the license for any reason, Licensee shall (i) immediately cease using the Software and Documentation and promptly uninstall and erase the Software and Documentation (and related License Manager and License Keys) from all Licensee computers, and (ii) destroy the Software (and related License Manager and License Keys) and Documentation or, upon request by Hexagon, return the Software and Documentation (and License Keys, including associated physical dongle/portlock if any) to Hexagon or the Reseller from which they were acquired. Licensor reserves the right to require Licensee to certify and/or show satisfactory proof that all copies of the Software and Documentation (and related License Manager and License Keys) have been uninstalled, and that all Software and Documentation and any copies thereof (and related License Manager and License Keys) have been destroyed or returned. Termination of any license shall not relieve Licensee from any obligation accrued on or before the date of termination. Provisions that survive termination include those in Sections 5.4, 8, 9, 10, 11, 12, 13, 14 and others which by their nature are intended to survive.

EXPORT COMPLIANCE. Licensee shall comply with all applicable export control laws and regulations, including but not limited to those of the United States ("Export Control Laws"). Licensee represents, warrants and covenants that: (i) Licensee will not export, re-export, transfer or download the Software,
Documentation, technical data or other deliverables provided under this Agreement contrary to the Export Control Laws; (ii) Licensee will not use the Software, Documentation, technical data or other deliverables for purposes prohibited by Export Control Laws; and (iii) Licensee is not located in a country or region that is subject to a U.S. Government embargo (including Cuba, Iran, Syria, North Korea, and the Crimea region). Upon Hexagon’s request, Licensee shall promptly cooperate with Hexagon and provide Hexagon with any end-user certificates, affidavits, or other documents reasonably requested by Hexagon in connection with the exporting or importing of any items under this Agreement. Licensee will indemnify and hold harmless Licensor and its Affiliates against any claims, damages or fines relating to Licensee’s noncompliance with Export Control Laws.

- **US GOVERNMENT USE.** If Licensee is a branch or agency of the U.S. Government or is licensing the Software on behalf of the U.S. Government (“Government”), the following provisions apply to this Agreement. If the Software is supplied to the Department of Defense (“DoD”), it is classified as “Commercial Computer Software” under clause 252.227-7014 of the DoD Supplement to the Federal Acquisition Regulations (“DFARS”) (or any successor regulations) and the Government is acquiring only the license rights granted herein (the license rights customarily provided to non-Government users). If the Software is supplied to any unit or agency of the U.S. Government other than the DoD, it is classified as “Restricted Computer Software” and the Government’s rights in the Software are defined in clause 52.227-19 of the Federal Acquisition Regulations (“FAR”) (or any successor regulations) or, in the case of NASA, in clause 18.52.227-86 of the NASA Supplement to the FAR (or any successor regulations).

- **MISCELLANEOUS.**
  - This Agreement constitutes the complete agreement between Licensor and Licensee with respect to the subject matter hereof. The terms of this Agreement shall supersede and prevail over any conflicting terms in any purchase order or other Licensee-issued instrument. Licensee specifically agrees that any Licensee-generated pre-printed terms or general terms and conditions included or referenced in any purchase order or other Licensee-issued instrument shall not apply. No Licensor agent or employee is authorized to make any amendment to this Agreement, unless such amendment is in writing and signed by a duly authorized representative of Licensor.
  - This Agreement shall be construed and disputes hereunder shall be settled under the laws of the State of Delaware, United States of America (USA), without regard to its conflict of laws principles. Licensee and Licensor agree to the exclusive jurisdiction of, and venue in, the state or federal courts of the State of Delaware, USA, in any dispute arising out of or relating to this Agreement. The U.N. Convention on Contracts for the International Sale of Goods will not apply to this Agreement. Notwithstanding the foregoing or anything to the contrary, Licensor shall have the right to bring claims in any court of competent jurisdiction to enforce any intellectual property rights and/or protect any confidential information.
  - This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns. Licensee may not assign or transfer, by operation of law or otherwise, this Agreement (or any of the licenses or other rights or obligations hereunder), without Licensor’s prior written consent. Any attempted assignment or transfer in violation of the foregoing shall be void. Licensor may freely assign or otherwise transfer all or any of its rights, or delegate or otherwise transfer all or any of its obligations or performance, under this Agreement without Licensee’s consent.
  - If any provision of this Agreement is invalid, the parties agree that such invalidity will not affect the validity of the remaining portions of this Agreement. The parties further agree to substitute a valid provision for the invalid provision which most closely approximates the intent and economic effect of the invalid provision.
  - Ambiguities, inconsistencies, or conflicts in this Agreement, will not be strictly construed against the drafter of this Agreement; rather, they will be resolved by applying the most reasonable interpretation under the circumstances, giving full consideration to the intentions of the parties at the time of contracting. The section headings in this Agreement are for convenience only and will not be of any effect in constructing the meaning of the Sections.
  - Neither Licensor nor its Affiliates will be liable or responsible for delay or failure to perform any obligations under this Agreement occasioned by any cause beyond their reasonable control, including but not limited to war; terrorist acts; civil disturbance; fire; flood; earthquake; acts or defaults of common carriers; governmental laws, acts, regulations, embargoes or orders; or any other cause, contingency or circumstance not subject to their reasonable control.
• Except as otherwise specified herein, any notice given under this Agreement shall be in writing, and deemed received when delivered in person, by private courier, or by certified or registered mail, return receipt requested.
• The English language version of this Agreement is legally binding in case of any inconsistencies between the English version and any translations.
